1PASSWORD LIST OF SUB-PROCESSORS

(EFFECTIVE November 2, 2026[1])

To support the delivery of the 1Password Services, 1Password uses Sub-Processors that may store and process personal data of 1Pasword's Customers. This page provides important information about the identity, location, and role of our Sub-Processors.

1PASSWORD AFFILIATES

Entity Name	Location
Apono, Inc.	US
Apono Tech Ltd.	Israel
Kolide, Inc.	US
Trelica, Ltd.	United Kingdom

[1] *The subprocessor list has been updated to include Sub-Processors associated with 1Password Professional Services. No other additions or deletions have been made to the list for existing services provided by 1Password.*

[2] For EPM services, the location for this Sub-Processor will depend on the region chosen for your 1Password account, with the exception of when using item sharing, which will be temporarily hosted in the EU by default as long as the item share lasts. 1Password SaaS Manager services are hosted in the EU or the US depending on the region chosen by the account owner during sign up. Apono Services are hosted in the US. Privileged Access Management services are hosted in the US.

[3] The location for this Sub-Processor is defaulted to the US, except for 1Password SaaS Manager services made prior to 2025, which are hosted in the EU region.

To support the delivery of Professional Services, 1Password maintains affiliate companies in countries where our full-time employees work. Each of these affiliate companies comprises members of the 1Password team who contribute from outside of Canada.
